

How do I Upload a Video to SchoolTube?

First, create a free SchoolTube account.

To get your video up on the web follow the seven easy steps below:

1. Login to www.SchoolTube.com.
2. Click the 'Upload' button (next to the search bar).

3. Enter your video's information in the various fields (example seen below).
The "tags" are key identifying words that describe your video, the subject, etc.

Upload Video

Please fill in the following information:

Title:

Description:

Tags:

Tags are keywords used to help people find your video. (space separated)

Category 1: *None selected*

Category 2: *None selected*

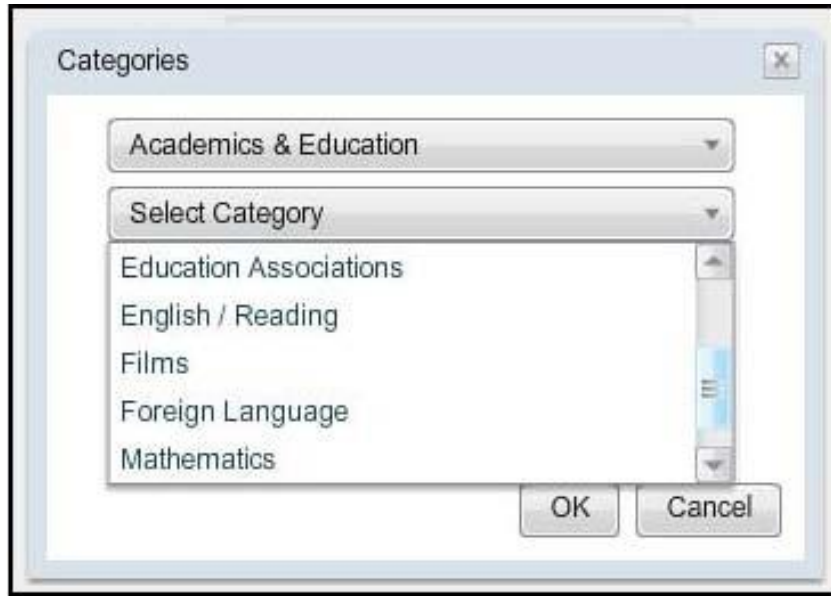

Category 3: *None selected*

I accept the Terms and Conditions

[Having trouble? Click here to use the classic uploader.](#)

4. Select a category by clicking on the green check box. Each category has one or more subcategories that you may choose to further classify your video.

The example below shows some of the subcategories under the Academics and Education category.

If you have problems using this Flash based uploader, click on the link at the lower right of the upload panel to use the classic uploader.

5. Accept the terms and conditions by clicking the checkbox.
6. Click the "Select File and Begin Upload" button, and select your media file from your computer.

7. Click the "Open" button and the video will begin uploading.

If you wish to cancel your upload, before it is finished simply click on the "Cancel Upload" button in the lower right of the upload panel.

That's it! After your media has been uploaded, it will need to be approved by a moderator. Once it's approved, your media will be live on SchoolTube! If you are a moderator, the media is automatically approved.
